## RURAL WEST PRODUCT GUIDE

Rural West would like to take this opportunity to thank you for your interest . If you have any questions or require further assistance, please contact Andrew MacDonald or Chris MacDonald on (08) 9 472 3488.

### TERMS & CONDITIONS OF SALE

Although all effort has been taken to ensure all quoted prices are correct and up to date, prices are subject to change without notice. Please note prices listed do NOT include GST, for a GST inclusive price please add 10%

### ORDERING

To place an order, you can phone, fax or E-mail your order directly to our office. Our shop is also open to Monday to Friday 8am to 5.30pm

### FREIGHT

Orders can be sent via courier or post. Please note orders = Minimum of \$300 of Rural West manufactured products (K9 Kare Hydrobath Wash, Show Shampoo, Parlour Cologne etc), or minimum \$500 other brand names, are sent freight free to any address in the Perth metro area. All other orders sent via Australia Post will incur a \$8.00 + GST/20kg minimum charge. Postage charges will be charged as per standard Australia Post charges deemed on weight. In MOST cases orders placed before 2pm Monday to Thursday will be delivered by the following afternoon (when delivered in Perth Metro area). Please note any order sent via courier or post are sent at the receivers risk. Alternatively, we are happy to send goods via receivers preferred freight company.

### PAYMENT OPTION

There are a number of different payment options available including, B-Pay, Post Bill Pay, Electronic Funds Transfer (EFT), Cheque, Cash, Money Order or Credit Card (Bankcard, Mastercard, or VISA only). (Please notify Rural West of your preferred payment option when ordering). A 30 day account is also available to approved customers. Please contact Rural West if you have any queries or require further information regarding any payment option.

### NEWSLETTER

Rural West also has a free Bi-annual Newsletter that can be posted or e-mailed to our customers. If you would like to subscribe to this newsletter simply contact Rural West via phone, e-mail or fax with your details.

Rural West is a small, versatile Western Australian company that specialises in the provision of animal health and nutrition products and services to the livestock industry. We have access to an extremely broad scope of options, not always available through conventional sources of supply.

\* Rural West supplies and manufactures vitamin and mineral pre-mixes, concentrates, loose licks and feed additives for all types of cattle, sheep, goat, pig, alpaca, emu and ostrich enterprises. A nutrition consultant customises ruminant rations based on available feed components to make optimum use of either pasture-based or complete feeding systems. We have access to nutritionists who specialise in other areas of animal production. We are happy to refer you to a specialist Nutritionist, Veterinarian or Agronomist if you require a professional, comprehensive assessment of your farms nutritional needs.

\* To assist with maximum profit ration formulation, **feed analysis** is needed for energy, crude protein and dry matter content. Depending on parameters required, Rural West provides analysis through local service providers or 'Feedtest'.

\* Natural feed additives are available as an alternative to more traditional production enhancers: yeast ('Yea-Sacc 1026' strain of *Saccharomyces cerevisiae*); yucca extract ('Deoderase'); probiotics (Lactobacillus & Bifidobacteria, 'Protexin'). 'Chelated' trace minerals are readily available.

\* Rural West will custom mix all required additives into 1 bag. The farmer can then add 1 bag per 1 tonne Final Feed. This will eliminate the need to weigh individual ingredients, which usually results in loss of product from spillage. We will provide each customer with Final feed Ration, and Mixing Sheet, which limits the possibility of incorrect mixing. Every bag is labeled with all Instructions and Safety Directions.

\* Rural West manufactures electrolytes, custom medications, disinfectants, antiseptics and animal shampoos. A range of detergents is also stocked for hands, laundry and kitchen use.

\* Health products and equipment for large animal management are a specialty, hoof care, animal restraint, animal identification, dehorning equipment, castrators, obstetrical aids, trace mineral bullets, internal & external parasite control products, vaccination programs, vaccines & vaccinators, syringes & needles, injectable vitamins & tonics.

\* An extensive range of small animal products is stocked including internal & external parasite controls, The '**K9 Kare**' range of flea rinses, shampoos and grooming products are an example of canine products manufactured by Rural west. We also have most popular brands of small animal treatments including, Frontline, Advantage, Advocate, Proheart, Heartgard, Drontal, Repel X, Flyaway, Septicide, Calcium Sandoz, Elastoplast etc.

Rural West aims to deliver the optimum package to achieve the desired production outcome at a competitive price. We have experienced staff to provide sound advice on all animal health & production issues.

**BULK and TRADE PRICING ALWAYS AVAILABLE.**

# K-9 KARE

## HYDROBATH CONCENTRATE

Available in:

- 1ltr Bottle: \$20.00
- 5ltr Bottle: \$85.00
- 20ltr Cube: \$295.00

### DISCOUNT RATE

2 x 20ltr cube @ \$260.00 each

### ACTIVE INGREDIENTS:

Pyrethrins & Piperonyl Butoxide  
 Hypo-Allergenic Shampoo  
 & Conditioner

Available in 3 Fragrances:

- Ice Water
- Black Drak
- Bubble Gum
- or Without Fragrance

### INDICATIONS:

A hypo-allergenic, insecticidal dog wash that kills fleas on contact, and aids in the prevention of re-infestation of fleas. Leaves dogs coat in soft, shining condition, with a pleasant fragrance.

Special formulation designed for hydrobaths. Low foaming to eliminate cavitation problems in pumps caused by high foam.

Trials done in N.R.A approved, independent laboratories prove safety, efficiency and stability. Results of these trials are available on request. This product is registered and approved for sale in all states of Australia by the National Registration Authority (APVMA). Material Data Sheets (MSDS) available on request.

### DIRECTIONS:

- Mix 100ml of concentrate in 20 litres of warm water.
- Wash dog thoroughly, avoiding eye contact. Do not rinse off.
- Allow dog to dry naturally (drip-dry) or blow dry in cold weather.
- Wash dog and its bedding fortnightly.

### Aseptol

Chlorhexadine based germicide, disinfectant and detergent. Suitable for cleaning kennels and stables. Also for the treatment of cuts & wounds & cleaning of grooming equipment.

- 500ml : \$15.00
- 5ltr : \$92.00

### Reodorant

Pleasantly eliminates odours. Does not mask the odour unlike other products. Smells are absorbed in reodorant leaving no smell but a light perfume behind

- 500ml : \$10.00
- 1ltr : \$15.00

### Bluewash and Powder Fresh Laundry Powder

Enzyme boosted laundry washing powder suitable for hot or cold water. 1 scoop per wash

- 5kg : \$22.00
- 25kg : \$90.00
